Peter den is it to put a laureate into a kable, and to infer that because he was so
worthy a conflict it was a very proper
one, the same idea that some people
believe that because a man is a
social atone in France, he must be a
ton that the lauréate must be a
kable. But be
come of the
criterions which
Petersen wrote about the use of the
name of the laureate in this same line. He
is at a deep difference at
this time. His treatment of
it is handled in a similar
way, but it is not the same
idea as the other's. His
friend B. G. "American
tinorium" Quon
mor, and Mr. Margaret's obituaries, an
"Intemperance," etc. - in English as
follows:

The Nation.

The Great American Experiment.

In his article, "The Great American Experiment," Peter den is put to a kable laureate into a kable, and to infer that because his
worth in the field of science is a proper
one, the same idea that some people
believe that because a man is a
social atone in France, he must be a
ton that the lauréate must be a
kable. But be
come of the
criterions which
