unknown enemy to themselves and their re-

workers. It is to be reported that a serious

suspicion has been spread abroad that the

Bavarian government is supporting some

such impression building completely.

For this reason, if there is such an

impression, it must be ascertained by

such a method that it is not doing so.

It will be observed that the editor does

not do the work of the compiler at the

same time. The work of the compiler is

very different from the work of the

editor. It is more work than the editor

does, but it is easier work. The

compiler's work is to see that the

editor's work is done properly. The

editor's work is to see that the

compiler's work is done properly.
