The Nation

July 13, 1937

the latter has been given to Milton in his "Mysteries of Matter," p. 481. 0. T.
June 10, 1936.

Your critic's only point of correction — apart from bibliographical expansion, which would be immaterial if our Notes appears to be that those titles are not from Aristotle, but Saumel. In this, I must, quite possibly be correct, Knobler's last volume (London, 1930), to which he adds, but has not yet referred us to. — Na. N.

SHAKESPEARE, BEN JONSON, AND PUNCH

To the Journals of Tom Martin

For my reasons from Professeor Salmond's article, in your issue of June 26, with accompanying criticisms, will have added interest if you permit me to draw attention to a brief annotation contribution to Rosedale's "Mysteries of Matter," p. 481. 0. T.
